2. Dr. Saadia Fatima (QA Coordinator)

Executive Summary

This current report is being prepared almost at the end of the assessment cycle for selected programs of Foundation University Islamabad, as per requirements of the Higher Education Commission (HEC). Quality Enhancement Cell (QEC) currently renamed as Department of Quality Assurance (DQA) was formed in FUI in November 19, 2015. Program Team Members of all remaining faculties, notified by University, worked with Director QA to pursue the application of Self-Assessment Manual in their respective departments.

Objectives

Following are the two main objectives of the self-assessment report: -

- a. To implement the Self-Assessment Manual in the selected program with a view to improving quality in higher education.
- b. To identify the areas requiring improvements to achieve objectives through desired outcomes.

Execution

A soft copy of the self-assessment manual was given to all faculty members. Quality Awareness Lecture and Workshop on preparation of Self-Assessment Report (SAR) were arranged for the Deans/In-charge Programs and Program Team (PT) Members of the selected program. Hard copies of HEC issued 10 proformas, 8 criterion and 31 standards were provided to PT members to evaluate their respected program against defined standards. The PT members with an intimate support and follow up of DQA completed the SAR and forwarded to DQA in a given time frame.

After reviewing SAR, DQA arranged a visit of Assessment Team to the selected program. Director Quality Assurance accompanied the AT Team and participated in discussions with In-charge Program / Program Team members and available faculty members.

The AT during visits indicated salient points of the SAR, the account of its discussions with the faculty members, improvements required in the infrastructure, syllabi and training of the faculty and support staff.

The implementation plan basing on the discussions in the exit meeting have been made by Director QA and External Expert.

Department of English (BS English) 2019-2020

The implementation plan indicates the resources required to improve the infrastructure, environment in the classes and E-Learning. The tasks have been completed on a fast track by the combined efforts of Head of Department, DQA and Registrar's Office.

After Self-Assessment cycle, DQA is going to submit the hard and soft copy of SAR to HEC

Introduction

The Foundation University Islamabad (FUI), a project of Fauji Foundation was established under a federal charter in October 2002. The University's programmes of study have been duly accredited by Higher Education Commission (HEC), National Computing Education Accreditation Council (NCEAC), Pakistan Engineering Council (PEC), College of Physicians and Surgeons of Pakistan (CPSP) and Pakistan Medical and Dental Council (PM&DC). The University has been rated as category 'W4' (the highest rating category) by the HEC and is also ISO 9001:2008 Quality Management System Certified by the United Kingdom Accreditation Service. The Foundation University aims to become a research-led University. For this purpose, the University has established the Office of Research, Innovation, and Commercialization (ORIC). FUI is vigorously pursuing academic and research collaborations with the Universities of repute both in-country and abroad. The University is also developing and promoting academia-industry linkages and is in the process of initiating various projects with different organizations including Industries of its parent organization, the Fauji Foundation.

The University faculty at its two campuses is highly qualified and dedicated to achieving academic excellence. The FUI has state-of-the-art academic blocks having fully equipped Labs, libraries, lecture halls, video conferencing hall, digital library, students' hub, medical laboratories, museums, auditorium, seminar halls and conference rooms etc. Besides, the FUI has launched its unique Campus Management System to help students, faculty and the administration to work in a homogenous paperless environment to enhance efficiency. Foundation University is a quality conscious institution and following a viable Quality Assurance mechanism. Department of Quality Assurance (DQA) at FUI has also been revamped to constantly monitor the assessment of students' learning outcome, evaluate existing programs for relevance and effectiveness and regularly carrying out faculty assessment. Besides quality education and research, the FUI is also focused on the students' counselling, career guidance and serves as a bridge between University graduates and employers. The University regularly organizes the open houses and job fairs to facilitate its students in choosing the right direction for their professional grooming.

Foundation University Islamabad Campus consists of a Medical College, College of Dentistry, Institute of Rehabilitation Sciences, the University Secretariat and 750 bedded Fauji Foundation Hospital, which serves as the Teaching Hospital for the Trainees.

The Foundation University Rawalpindi Campus is providing quality education in the fields of Electrical Engineering, Software Engineering, Business, Economics, Psychology, Education, Humanities and English from Bachelor to Doctoral level. The campus is an excellent technological platform to provide a congenial educational environment to its students and researchers.

University Vision Statement

The university aspires to be among the leading institutions of higher learning, which contributes towards the development of the nation through excellence in education, research and innovation.

University Mission Statement

- *Inspire creative inquiry and research to foster the personal and professional development of its students.*
- *The FUI is committed to providing equitable access to holistic education in diverse disciplines to produce a valuable human resource for national and global communities.*

Departmental Mission

The Department of English FUI is committed to advancing knowledge and creativity by providing optimum opportunities for professional and personal development to its students with quality teaching and research-based learning. We believe that sound basis in theories in linguistics and literature, critical reading and writing and research-based learning provides a foundation for specialized study and research.

Program Selected

Department of English is currently running the following programs:

- a. Bachelor of Science in English**
- b. MS English (Linguistics & Literature)
- c. PhD English

FURC has selected the **BS English** for Self-Assessment Report (SAR) for the year 2019-20 under the directives of HEC.

The programs have got an inbuilt mechanism for the revision of syllabi, have competent faculty and adequate infrastructure. New and modern tools have been introduced in the programs to conduct research and quality teaching.

Programs Evaluation

The program is being evaluated based on 8 criterion and 31 standards as given in the Self-Assessment Manual provided by the Higher Education Commission (HEC).

Criterion 1: Program Mission, Objectives and Outcomes

Standard 1-1

The program must have documented measurable objectives that support institution mission statements.

BS English was designed as a replacement for the MA English programme making use of the lessons learnt from the successful run of the MA programme to create a programme that was more attuned to the contemporary trends. In the third year of its launch, the BS programme is already firmly established as a key programme for the department of English and the students who want to venture in the field of English. The present review is aimed at both consolidating the gains made in the last three years and sustaining the growth of the programme in the years ahead. The programme is particularly important for it is being built up to be the feeder programme for the department's MS and PhD programmes.

Program Objectives

The key aims and objectives of the BS English programme are to:

- Introduce the learners to a variety of courses in linguistics and literature to promote transdisciplinary thinking.
- Offer a structured path with a sound basis in theories to exploring issues in linguistics and literature.
- Nurture a culture of critical thinking and research-based learning
- Help the students form a sound basis for higher learning

Alignment of Program Objectives with Program & University Mission Statement

The objectives of BS English program are defined in the light of program and university mission statement that fosters creative inquiry and research skills to enable the students in making a valuable contribution in their respective field in particular and the society in general.

Program Objectives Assessment

The following table shows the program objectives assessment. It identifies the criterion, its measurement and improvements identified through this mechanism.

Table# 1 Program Objectives Assessment

Objectives	How Measured	When Measured	Improvement Identified	Improvement Made
1 Introduce the learners to a variety of courses in linguistics and literature to promote transdisciplinary thinking	Final and mid-term exams, assignments, presentations, and student interaction	Throughout the semester	Lack of transdisciplinary thinking	More transdisciplinary thinking activities were incorporated in the syllabus
2 Offer a structured path with a sound basis in theories to explore issues in linguistics and literature	Viva voce	Before final-term exams	Lack of theoretical knowledge in students' mental repertoire	Incorporation of theoretical aspect in various subjects
3 Nurture a culture of critical thinking and research-based learning	Students are assigned different research-based assignments	Throughout the semester	Lack of interest in research-related activities	Incorporation of extensive research activities in various courses
4 Help the students form a sound basis for higher learning	Autonomous learning activities	Throughout the semester	Students need to be more independent to take responsibility of their own learning	Along with the group projects, students were also given individual assignments

Strategic Plan

The strategic plan of the department follows the strategic plan of the institute. The areas covered under the strategic plan are curriculum, professionalism, stands of program assessment and measurements.

Category	Credit Hours in Semester								Total
	1	2	3	4	5	6	7	8	
Compulsory Courses	6	5	6	6	-	-	-	-	23
General Education Courses	6	6	6	6	-	-	-	-	24

Elective Courses	-	-	-	-	-	-	6	6	12
Total	18	17	18	18	15	15	15	15	131

Main Elements of Strategic Plan

Strategic plan for BS English Program defines the overall layout of the areas/elements that are included in the program to impart education to the students at the BS level. These elements prepare students through theory and research work. These elements are Program Contents, Program Delivery Methodology and Program Output Evaluation.

Program Contents

- Duration: 8-12 Semesters (4-6 years)
- Total Credit Hours: 124-136 credit hours
- Thesis/Project: Major assignment in every major and elective course as per the 2017 HEC guidelines

Program Delivery Methodology

Program delivery methodology includes lectures and discussion by the subject teachers and presentations, tutorials, assignments, quizzes and research projects by

the students. Seminars are also arranged for imparting knowledge by inviting experts in the field of linguistics and literature, regularly to the campus.

Program Output Evaluation

The program output is measured through regular examinations, assignment's results and final thesis results.

Assessment of the students for each course (other than the thesis) in the BS English programme is carried out according to the following formula:

Sr. #	Assessment Tool	Marks
1.	Assignments, Projects, Quizzes, Presentations spread through the semester	25
2.	Midterm examination of 1.5 hours duration	25
3.	Final Term examination of 3 hours duration	50
Total		100

Standard 1-2

The program must have documented outcomes for graduating students. It must be demonstrated that the outcome supports the program objectives and that graduating students are capable of performing these outcomes.

Program Outcomes

On the completion of the degree in BS English students will be able to:

1. Critically and analytically read works of literature produced in many different cultures and historical periods.
2. Demonstrate, through discussion and writing, an understanding of significant cultural and social issues presented in the literature.
3. Apply critical and technical vocabulary to describe and analyze, and formulate an argument about, literary texts.
4. Demonstrate in-depth knowledge of selected areas of linguistics such as language variation, language development, language learning
5. Compare and contrast language structures and explain relationships between language and culture.
6. Apply the knowledge gained of the selected areas of linguistics in other academic contexts

Major Future Program Improvement Plans

BS English Program Strong and Weak Points

BS English program is designed to educate students to meet the challenges of the modern world and present market needs. During the execution of the program, several observations were made that can be categorized as strong and weak points of the program. These points are listed below:

BS English Program Strong Points:

- Competent and expert faculty
- Curated courses for linguistics and literature
- Follows HEC guidelines

BS English Program Weak Points:

- Comparatively higher fee structure.
- Quality of input due to generally poor standard at HSSC level

Significant Future Development Plans

- Plan to arrange longer workshops in areas such as corpus, forensic linguistics
- Establishment of a writing lab
- Launch a creative writing online magazine

Standard 1-4

The department must assess its overall performance periodically using quantifiable measures.

Enrolment in BS (English) in last Three (03) years:

Enrolment	2018	2019	2020
BS (English)	60	65	80

Student Faculty Ratio:

BS

1:9.75 (Including visiting faculty for allied courses)

Average GPA per Semester:

The Program has average GPA of 3.35 per semester.

Average Completion time:

The program has average completion time of 4 years.

Faculty Research Publications and Award:

The program faculty published research papers in different journals. List attached in Annexure A.

Community Service

Department of English has been engaged in a number of activities. Some of these activities are as under.

A- Supporting the Initiative of the Government of Pakistan as Social responsibility

- 1) Clean and Green Pakistan
- 2) Tree Plantation
- 3) Say no to Corruption
- 4) Save Water Campaign

B- International Day

- 1) World Peace Day
- 2) United Nations Day
- 3) Kashmir Day
- 4) Human Rights Day
- 5) Pakistan Day

C- Continuing Series of Workshops and Activities

- Drama Club
- Debate Club
- Literature-based Project Presentations

Students/Teachers Satisfaction

Students and teachers' satisfaction are judged in different ways. For students this is done by faculty as well as DQA staff by conducting in-class discussions to know students' views and through feedback provided by them on HEC Proforma number 1 & 10. While, teachers' satisfaction is judged using the HEC defined Performa number 5 and their views during in-person discussion with DQA staff.

Criterion 2: Curriculum Design and Organization

Course Title: Introduction to Corpus Linguistics

Course code: IIN 4071

This course is an introduction to the fast-growing field of corpus linguistics. It aims to familiarise students with key concepts and common methods used in the construction of language corpora, as well as tools that have been developed for searching and using major corpora such as the British National Corpus. Students will be given hands-on experience in pre-editing, annotating, and searching corpora. Criteria and methods used for evaluating corpora and analytical tools will also be discussed. The main aim of this module is to master the uses of text corpora in linguistics research and applications.

COURSE CONTENTS

This course introduces basic corpus skills for linguists:

- What is Corpora?
- How are corpora developed?
- Issues in Corpus Design
- Types of Corpus?
- What are Corpora useful for?
- Marking up linguistic information
- The range of existing corpora
- How to build your own corpus
- Using corpora to test linguistic hypotheses
- Using corpora to train language tools

Course Title: **Advanced Syntax**

Course code: **IIN 4025**

The course aims to introducing students to the advanced concepts in current syntactic theory. Building on their knowledge from 'Morphology and Syntax' it introduces advanced theoretical concepts such as Government and Binding Theory and Minimalism.

COURSE CONTENTS

- Where do Rules Come From
- Modeling Syntax
- Generative Grammar
- Structural Relations
 - Domination
 - Precedence
 - C-Command
 - Grammatical Relations
- Binding Theory
 - Coindex& Antecedent
 - Binding
 - Locality Conditions
 - Distribution of Pronouns and R-Expressions
- X-Bar theory
 - Bar-Level Projections
 - X-bar schema
 - Complements, Adjuncts and Specifiers
 - Parameters of Word Order
 - Drawing Trees in X-Bar Notation
- Movement
 - Common Types
- Minimalism

- Introductory Topics

Course Title: ELT Practicum
Course code: LIN 4059

The course supplements the theoretical content of Teaching of English as a Second Language by guiding the learners through the practical implementation of the concepts.

COURSE CONTENTS

- Lesson planning
- Teaching the language skills
- Integrating the language skills

- Hegemony
- Domination by consent
- Creating Identities
- Discursive Devices: Lexical Choices, Structure, Othering,
- Resisting Hegemony or domination

Course Title: Computer Assisted Language Learning/Teaching

Course code: LIN 4057

The course offers a look at the concept of computer aided language learning and teaching. The course also looks at the applicability of CALL to the Pakistani context where technology is not readily available. The course guides the learners on how to incorporate CALL/T in their teaching and also offers learners ways to adapt the existing syllabi to the use of computers.

COURSE CONTENTS

- Origin of CALL/CALT
- CALL in the Pakistani Context
- Requisites of CALL/CALT

- Feasibility of CALL/CALT in Pakistan
- Dynamics of CALL/CALT Classroom
- Role of Teacher and Learners in CALL/CALT
- Online resources
- Adapting Existing Syllabi for CALL/CALT
- Social Media and language teaching
- e-literature
- Dedicated language learning Software

Course Title: Introduction to South Asian Literature
Course code: LIT.4093

The course is meant to showcase representative works from South Asia. It is meant to be a precursor to the later higher level interaction with South Asian literature in postcolonial studies.

Course Title: Testing AND ASSESSMENT
Course code: LIN 4053

The course introduces students to theory and practice of testing and evaluation process to develop in them deeper insight into the fundamentals and techniques of testing. In addition to discussing general principles of language testing, the course provides information to the students to construct a wide range of English language tests and test items in relation to language elements and skills. Also, the students are given practice to construct a variety of valid and reliable test items.

COURSE CONTENTS

- Test, definition, need
- Types of Test: objective-subjective, norm referenced—criterion referenced, types on the basis of purposes
- Anxiety and Tests
- Reliability
- Validity
- Backwash/Effects of testing on language learning
- Testing language skills

Course Title: Introduction to Computational linguistics

Course code: LIN 4049

This course will enable students to: understand important concepts and issues of computational linguistics and know applications of computational linguistics.

COURSE CONTENTS

- Introduction
- Computer in linguistics
- Parsing and generation strategies
- Implementation of strategies
- Computational complexity
- Computational phonetics and phonology
- Computational Morphology
- Computational Syntax
- Computational Lexicology
- Computational Semantics
- Applications of computational linguistics

Elective Courses

Course Title: African Literature

Course Code: LIT 4075

The course introduces students to a range of African writers writing across Africa by highlighting the diverse historical, postcolonial, and political realities that helped shape current African literary discourse. The people of Africa and Europe met in an unequal situation, in which Africans were rendered materially inferior and subjugated through colonialism and slavery. This is the only form of modernity Africans have known so far. This course will explore issues of slavery, colonization and post-colony. In discussing literatures produced in various countries in Africa, it will be focusing on the distinctive characteristics of each text and how it is different and also very similar with other literary texts produced in Africa. This course will also focus on how various ethnicities, and the creation of borders by 'former imperial powers' have created problems for countries even after the independence, and how these conflicts are affecting and shaping the narratives by African writers, both male and female.

Course Title: Emerging Trends in Sociolinguistics

Course Code: IIN 3069

The course aims at bringing about awareness of the dynamics of language and its social operations. The course will focus on the contemporary developments in sociolinguistics and the new dimensions of research in the area.

COURSE CONTENTS

- Societal multilingualism
- Language varieties: language and culture
- Bilingualism, diglossia
- Linguistics and social inequality
- The ongoing linguistic processes, controversies, and implications of language modernization
- Language planning • language conflicts and politics in south Asia

Course Title: English for Specific Purposes (ESP)

Course Code: LIN 4056

The basic aim of this course is to teach the learners how to design and implement ESP programme for a group of students in a particular occupational or academic setting. The course will enable the students to examine classroom practices for

effective ESP instruction. The course will also talk about how to conduct needs analysis to tailor the course materials.

COURSE CONTENTS

- Introduction to ESP
- Historical and theoretical perspectives on ESP
- Conducting needs analysis (setting general goals and specific objectives) Course and Materials: evaluation, design and development
- Assessment and Evaluation of ESP programmes
- Issues in ESP
- Approaches to text analysis (register, discourse, and genre analysis)

Course Title: Introduction to Critical Pedagogy

Course Code: LIN 4058

The course builds on the students' knowledge of teaching methods in English to develop an awareness of critical pedagogy. It familiarises them with critical theory and similar radical thinking approaches to acquaint them with the need and the tools to develop critical thinking in students. The course establishes the role of critical thinking in the class room and then builds on it to take critical thinking to concepts and issues in all walks of life.

Course Title: Pakistani English
Course Code: LIN 4052

This course is an attempt to present a link between the link between English as lingua Franca and International Englishes. This course is an introductory course for the students of Linguistics to show the historical background of the phenomenon of World Englishes. The application of linguistic knowledge gives an equal status to all varieties of English in the modern world. The course introduces the practical important features of Pakistani English (PE) as an emerging variety. It will highlight the use of PE as a vehicle of formal and informal communication in Pakistan.

Course Contents

- Introduction to the course & historical background
- Language Variation
- Levels of language variation
- Language change and language contact
- Ecology comes first
- Categorizing World Englishes
- Interrelationship of World Englishes to Sociolinguistics
- Major Trends in World Englishes specifically in ESL situation
- South Asian Englishes
- Pakistani English: Introduction
- Historical Background of Pakistani English
- A Short survey of British colonization
- Types of colonization

Course Title: Second Language Acquisition

Course Code: LIN 4054

Course Description This course focuses on second language acquisition (SLA) aiming overall to introduce students to the major concepts and theories of SLA. It is divided into two parts. The first part outlines some general concepts concerning the field of SLA and the second part provides an overview of some of the most influential SLA theories.

Course Objectives The objectives of the course are to: • Enable the students to explore and evaluate SLA theories from the point of view of second language learners • Develop students' understanding of the cognitive and social dimensions of SLA • Enable the students to gain an understanding of basic concepts of SLA.

Course Contents

Basic Concepts of SLA • Key issues in second language acquisition • Language, acquisition and learning • First language acquisition • Comparing and contrasting first and second language acquisition • Factors affecting second language acquisition • Social factors and second language acquisition • Cognitive factors and second language acquisition • Individual differences and second language acquisition • Classroom second language acquisition • Formal instruction and second language acquisition • Classroom interaction and second language acquisition • Input, interaction and second language acquisition • Error analysis and second language acquisition Theories of SLA: • The Monitor Model • The Acquisition versus Learning Hypothesis. • The Monitor Hypothesis. • The Natural Order Hypothesis. • The Input Hypothesis • The Affective Filter Hypothesis Interlanguage Theories • Overgeneralization • Transfer of Training • Strategies of Second Language Learning • Strategies of Second Language Communication • Language Transfer • Stabilization and Fossilization in Interlanguage • Language Socialization in SLA • Acculturation/Pidginization Theory • Sociocultural Theory • Processability Theory • Cognitive approaches to second language acquisition • Cognitive Processes in Second Language Learners • Universal grammar • Role of Universal Grammar in First and Second Language acquisition • Principle and Parameter Theory • Projection Principle • Language learning through association • Connectionism

Course Title: Introduction to Forensic Linguistics

Course Code: LIN 4072

Course Description This course aims to present and identify the interface between linguistics and law. This course is an introductory course for the students of Linguistics. The application of Linguistic knowledge to help law officials is appreciated all over the world. The Text and process of law are very complex. This complexity is not only due to its procedures, but also due to its language. Keeping this in mind, this course investigates the use of Forensic Linguistics from Pedagogical point of view. It will help not only the students of language to find out new prospects of investigation other than language teaching, but will also benefit law students by making them understand the intricacies of the English language.

Learning Outcomes

At the end of the course, students are expected to understand:

- The link between Language and Law
- The historical background of Forensic Linguistics
- The role of linguists in law
- The use of Forensic linguistics, some benchmark studies
- The need of Forensic Linguistics in Pakistan

Course Contents

- Applied Linguistics and its diversity, Application of linguistics in the field of law
- Introduction to Forensic Linguistics
- Definition, Description of Forensic linguistics
- Forensic Linguistics as an important branch of Applied Linguistics
- Brief History of Forensic Linguistics
- The role of Linguistics in Law, in Text Analysis as well as in Process analysis.

128

- The application of skills in different branches of Linguistics in Law
- The application of the knowledge of Phonetics and Phonology in Forensic analysis.
- The application of the knowledge of Morphology and Syntax in Forensic analysis.
- The application of the knowledge of Semantics and Discourse Analysis
- Some benchmark studies around the world
- Benchmark studies of linguists like Labov, Roger Shuy, Olsson, Mcmenamin, Tierisma, Leonard, Chaski.
- The need of developing forensic linguistics in Pakistan

Course Title: Introduction to Clinical Linguistics

Course Code: LIN 4073

Course Description This course is intended for graduates in linguistics, clinical linguistics, psychology, speech and language therapy or a related discipline with an interest in research in speech, language pathology, biomedical (Neurosciences), communication and language impairment. **Course Objectives** The objectives of the course are given as below:

- To enable students working or wishing to work with acquired communication disorders to have opportunity to further their career
- To understand acquired communication disorders, impact of these disorders on everyday life and how interaction can assist the person with disorders and their significant others
- To access research findings and methods and engage with

evidence based practice • To enhance skills in the assessment teaching and management of people with the acquired communication disorders • To maintain an interaction and cross linguistic perspective

Course Contents 1. Language storage in brain 2. Children's Learning 3. Spoken and Written Language Disorders 4. Developmental Disorders 5. Specific language impairment 6. Autistic spectrum disorders 7. Learning difficulties 8. Behavioural difficulties 9. Auditory processing difficulties 10. Dyslexia 11. Adolescence, 12. Dysarthria 13. Early years 14. Aphasia 15. Dementia 16. Pragmatic impairment 17. Acquired Language Disorders 18. Acquired Speech Disorders • Methods in Clinical Linguistics • Early Years • Cleft Lip and Palate • Developmental Communication Sciences • Speech Difficulties – assessment and intervention

Course Title: Language and Gender
Course Code: LIN 4044

Learning Outcomes

The course aims to develop analytical thinking about gender, language and relations between them. It also aims to expose students to facts, theory and analytic tools to analyze issues related to gender and their relation to language. It is likely to provide an overview of gender related linguistic, social, political and moral issues. By the end of the course, the students will have learnt • how members of each gender use language differently • how culturally enshrined ideas about gender affect language and its use • how linguistic conventions reinforce these ideas for the expression of gender differences • what structure and usage patterns in language are exhibited by men and women • how language treat the genders differently

Course Contents • Relationship between language, gender and society • In what ways do men and women use language differently? • How do these differences reflect and/or maintain gender roles in society? • The primary linguistic approaches to gender and language • Historical and contemporary issues and controversies in the field of language and gender • Different perspectives on language and gender: linguistic, anthropological, sociological, psychological, feminist.

Courses Information

Standard 2-1

The curriculum must be consistent and supports the program’s documented objectives.

The curriculum is based on the latest HEC guidelines. External Experts are invited to the Board of Studies meetings that are held at least twice a year to revise the curriculum and update or revise it as needs be.

Standard 2-4

The curriculum must satisfy the major requirements for the program as specified by the respective accreditation body.

There is no accreditation body. The program meets the regulatory body HEC's requirement.

Standard 2-5

The curriculum must satisfy general education, arts and professional and other discipline requirements for the program as specified by the respective accreditation body.

There is no accreditation body. The program meets the regulatory body HEC's requirement.

Standard 2-6

Information technology component of the curriculum must be integrated throughout the program

These courses are part of the programs to achieve specific level of IT related requirement.

Standard 2-7

Oral and written communication skills of the student must be developed and applied in the program.

These productive and receptive English language skills' courses are part of the program besides the degree requires some level of English language proficiency.

Criterion 3: Laboratories and Computing Facilities

FURC has established latest and fully equipped laboratories for students to facilitate them in their studies. Following is the list of available laboratories available to the students:

1. Computer Lab A
2. Computer Lab B

The details about these laboratories are provided as under:

Laboratory Title	Computer Lab A	Computer Lab B

Table 7: Laboratories Details

Standard 3-1

The University computing infrastructure and facilities must be adequate to support program's objectives.

There are several resource person available in the laboratories every time. The concern authorities have all the manuals and instructions booklet to guide the students. The manuals and instructions are available at all time for the immediate access if needed.

Laboratory services in the university are equally excellent and as good as to any highly reputed institution of the country

Standard 3-2

There must be support personal for instruction and maintaining the laboratories.

Course instructor is available all time during lecture. Computer staff is also available to assist students and faculty.

Standard 3-3

The University computing infrastructure and facilities must be adequate to support program's objectives.

There is no separate computer laboratories for the English department. They use laboratories of engineering and software department to have assistance to carry out their tasks. Laboratory services in the university are equally excellent and as good as to any highly reputed institution of the country.

The computer laboratories of the university have the updated and latest computers and equipment to provide immediate assistance. The students have the free access to the computer laboratories. As per the program objectives, the students are required to have IT skills to achieve the required goal. The software and equipment which fulfill the degree requirement are facilitated. Faculty members are given personal computers and required equipment to assist in the job related tasks.

Laboratory services in the university are equally excellent and as good as to any highly reputed institution of the country.

Criterion 4: Student Support and Advising

Since the launch of FURC in year 2002, all its programs have started and finished on schedule. The culture in FURC is that teachers and students have facility of frequent interaction, even after classes, for any professional and academic advice. This aspect is even highlighted and indicated by the students in the feedback on HEC Performa number 10, taken by the Department of Quality Assurance (DQA) in the university.

The students on joining English department are given an orientation seminar that covers the following aspects: -

- Degree program

- Semester system
- Graduation requirements
- Course registration
- Examinations policy
- Retest policy
- Failure conditions
- Termination conditions
- Use of unfair means
- CMS
- Relevant program requirements

In addition to this, these instructions are also available to students on the university website as well as CMS. Class coordinators are designation from senior faculty who look after and maintain all the academic and personal matters of the students. Students have many sources to get their matters solved with professional guidance. Counseling builds confidence in the students and they never feel alone when facing any problem relating to academics or other matters.

Parental involvement is continuously encouraged to make the students to be more indulged in the academics. At the end of the semester, parents/guardians are informed of the student's performance. Attendance report is acknowledged to the parents/guardians to seek their full involvement in the student matters.

The Institute frequently arranges lectures /seminars/workshops on contemporary academic and social issues. Renowned scholars from Pakistan and abroad are invited to speak on a variety of topics.

Standard 4-1

Courses must be offered with enough frequency and number for students to complete the program in a timely manner.

The prerequisite courses are offered in a reasonable sequence that prepares the students to attain the program's defined outcomes and objectives.

- Courses are taught as per strategy and guidance provided by HEC.
- Subject courses are offered as per scheme of study of the department after approval of Academic Council of the university. Courses are offered by faculty trained in the relevant subject and as per their availability.

- Elective courses and minor courses are offered as per policy of HEC and University.
- Students are allowed to take courses in other programs on the basis of defined equivalency in course catalogue.

Students are allowed to take elective and specific courses on the basis of approval from the program managers.

Standard 4-2

Courses in the major area of study must be structured to ensure effective interaction between students, faculty and teaching assistants.

Courses are designed according to the level and with the full cooperation of the faculty team and discussed before the starting of the semester. All faculty members communicate each other effectively with full sincerity and devotion along with the students. Students are encouraged to share their concerns and opinions without any judgments and criticism.

A representative is nominated in each semester for each course that monitors the progress of each semester.

Interactions with faculty members are carried out all through the office hours. This helps to get the ongoing feedback. The Class Representative (CR) and The Girl Representative (GR) meet with Head of Department and Program Coordinator at regular intervals.

Standard 4-3

Guidance on how to complete the program must be available to all students and access to qualified advising must be available to make course decisions and career choices.

Orientation week is held before commencement of the session. Purpose of orientation is to acknowledge students about the program and coursework, requirements by in-charge program and DQA staff. Brief description and information is given to students as well the parents are asked to join the orientation to get the requirements and objectives of the program. In addition, a handbook of university requirements is given to students to consult policies as well.

Criterion 5: Process Control

Standard 5-1

The process by which students are admitted to the program must be based on quantitative and qualitative criteria and clearly documented. This process must be periodically evaluated to ensure that it is meeting its objectives.

The program has a well-defined admission criterion, which include evaluation of student's marks at different levels and admission test results.

The admission is done twice a year, in Fall/Spring semesters.

Students who have completed the 16 years of education are eligible to appear in the admission test of the program. Admission is granted strictly on the basis of academic record, admission test and interview.

Students from accredited universities are eligible to transfer their credits to FURC. Students have to submit complete course curriculum and internal evaluation certificate of each subject from his/her previous institution duly signed by Dean/Head of Department/Principal. Student's applications in this regard are dealt on case to case basis. Such applications are discussed in Board of Studies to evaluate them and make decision. Head of Department of the faculty is the final authority to make decision regarding credit transfers.

This admission criterion is evaluated every 2 years by the Board of Faculties and Academic Council in the light of instructions issued by HEC. Minor internal adjustments regarding admission test result weightages or test contents are made.

Prescribed admission forms are available from the Office of the Manager Student Affairs and various locations notified in the advertisement. Online application form may also be downloaded from the university website www.fui.edu.pk. Applications are received after the appearance of advertisement in the national press.

Foreign students seeking admission in the University can submit their applications along with application fee through their respective Embassies/High Commissions.

The admission forms and salient features of the prospectus are also hosted on the website www.fui.edu.pk. The candidate may download the application form and mail it along with a challan of Rs.1300/- for inland and US\$60.00 for expatriate/foreign candidates

Entrance Examination

Entry test will be held at FURC. No admission will be given without entry test

Selection Procedure

The applications for admission are reviewed by the Admission Committee. It is mandatory for all the applicants, to appear in the Entry Test. The candidate can apply only as Pakistani Resident or Expatriate/Foreigner. The applications to change the status from Pakistani to expatriate will only be considered if there are seats left in the Expatriate/ Foreign Category.

The relative weight-age of all the components of the Admission process i.e. the academic achievements in SSC, HSSC or its equivalent examination, and the Entry Test marks are added to determine the final merit.

The weight-age for calculation of the merit for MS program is as under: -

Benchmark	Weightage
BA/BSc/Equivalent	10%
MA/MSc/Equivalent	40%
Entry Test	50%

Verified Hafiz-i-Quran and NCC training shall get credit according to the Government admission policy.

The decision of the Admission Committee is irrevocable and non-negotiable. The authorities are not bound to explain the reasons for their decisions to the applicants, their parents or guardians.

Documents Submitted After Admission

A candidate, who is eligible for admission, must submit attested copies of the following documents (as indicated against each) along with the application form and the Deposit slip:

- SSC or equivalent foreign qualification certificate (one copy).
- HSSC or an equivalent foreign qualification certificate (one copy).
- BA/BSc or an equivalent foreign qualification certificate (one copy).
- Equivalence certificate (two copies) from Inter Board Committee of Chairmen, Islamabad (in case of foreign qualification)
- National Identity Card/Form B of the candidate (one copy).

- National Identity Card of Father/Guardian (one copy).
- Recent three colored photographs of the applicant.

Standard 5-2

The process by which students are registered in the program and monitoring of students' progress to ensure timely completion of the program must be documented. This process must be periodically evaluated to ensure that it is meeting its objectives.

The student's name, after completion of the admission process, is forwarded to the Registrar office for registration in the specific program and the registration number is allotted.

The following registration procedure is strictly followed at the beginning of each semester: The admitted student will be registered with FUI. A student shall be registered in the course(s) being offered by the University on the prescribed registration form and on CMS before or within one week of the commencement of the classes or as dates announced through notice board.

The form is available at the Students Affairs Office and Admission Office. The completed form should be submitted to respective advisor after the approval from the Head of the Department for onward submission to the office of the Student's Affairs.

The fee in full for the registered semester must be paid through payment slip to the Bank and a copy each to Student Affairs Office and Accounts Office.

Students not registered as above will not be allowed to attend classes. A student will not be enrolled for more than 18 credits in a semester. A student may register, with prior permission of the HOD for additional non-credit course(s) out of the prescribed course work. On successful completion of non-credit course(s), a mention will be made in the student's transcripts.

A student may add or drop course(s) or convert a credit course into a non-credit or vice-versa, within two weeks from the date of commencement of a semester on the recommendations of the teacher(s) and the HOD.

No registration or change of course(s) shall be allowed after three weeks from the date of commencement of the semester.

Students are evaluated through assignments, sessional, mid-term tests and final examinations at the end of each semester. Only qualified students in each semester are allowed to join the next semester.

Standard 5-3

The process of recruiting and retaining highly qualified faculty members must be in place and clearly documented. Also processes and procedures for faculty evaluation, promotion must be consistent with institution mission statement. These processes must be periodically evaluated to ensure that it is meeting with its objectives.

Vacant and newly created positions are advertised in the national newspapers, applications are received by the Registrar office, scrutinized by the respective Heads of Departments, and call letters are issued to the short-listed candidates on the basis of experience, qualification, publications and other qualities/activities as determined by the University in the light of HEC guidelines.

The candidates are interviewed by the University Selection Board. Selection of candidates is approved by the BOG. Induction of new candidates depends upon the number of approved vacancies.

Faculty members are retained by giving them good remuneration, favorable teaching environment, research facilities and management support.

On yearly basis faculty performance is evaluated basing on HEC Performa number 10 by the students, Head of Department recommendations and with the counter signature of Director. The annual increment is based on the recommendations of the Head of department and Director.

Standard 5-4

The process and procedures used to ensure that teaching and delivery of course material to the students emphasizes active learning and that course learning outcomes are met. The process must be periodically evaluated to ensure that it is meeting its objectives.

Students are the recipient of the delivery of course material, through their teachers. The program is actively evaluated by Head of Department, Course Advisors and QEC. The feedback of the taught is best instrument to measure that the course learning outcomes are met. The students give feedback on Performa number 1 regarding course contents and how it was delivered. Through Performa number 10, students evaluate and comment on teacher's efforts put in to deliver the course contents, his/her general conduct in the class, the environment s/he maintains and extra efforts s/he makes to satisfy students' thirst for knowledge.

Performa number 5 (Faculty Satisfaction Survey – (Annexure-G)) is a very useful activity to evaluate the course contents, learning and teaching environments and overall teachers' satisfaction level. Course evaluation by teachers also indicates what percentage of desired outcome has been achieved by the course contents and what needs to be improved or changed. This exercise is done once a year. The feedback is discussed with Dean and In-charge Program, who focuses on making improvements in the areas of weakness.

Standard 5-5

The process that ensures that graduates have completed the requirements of the program must be based on standards, effective and clearly documented procedures. This process must be periodically evaluated to ensure that it is meeting its objectives.

The MS program is run on semester basis and at the end of each semester examinations are held to evaluate the students' progress in that semester. Qualified students are allowed to join next semester and this cycle continues till the end of 4th semester which is the final semester. At the end of 4th semester all students are required to submit their respective projects.

Student's final results are announced on the basis of projects results and examination results.

Requirements of this standard are met through three Performa issued by HEC. The feedback is documented and its evaluation indicates degree of satisfaction of the graduates. Three forms (Performa 3: Survey of Graduating Students (Annexure-F), Performa 7: Alumni Survey (Annexure-A) and Performa 8: Employer Survey (Annexure-H)) are extremely good instruments to measure the program outcomes.

Criterion 6: Faculty

Standard 6-1

There must be enough full-time faculties who are committed to the program to provide adequate coverage of the program areas/courses with continuity and stability. The interests and qualifications of all faculty members must be sufficient to teach all courses, plan, modify and update courses and curricula. All faculty members must have a level of competence that would normally be

obtained through graduate work in the discipline. The majority of the faculty must hold a Ph.D. in the discipline.

Program Area of Specialization	No. of members of faculty in area	No. of faculty with PhD Degree
1	12 (Full Time) 17 (Part Time)	5 (Full Time) & 07 Overall

Table 7: Faculty Distribution by Program Area

Standard 6-2

All faculty members must remain current in the discipline and enough time must be provided for scholarly activities and professional development. Also, effective programs for faculty development must be in place. Effective Programs for Faculty Development

Faculty concurrency in the discipline is determined based on the criterion set by the University in the light of HEC guidelines. All faculty members submit their professional resumes on HEC Performa number 9 (Faculty Resume, Annexure-D) once a year. This information is compared with the existing criterion set by university for the concurrency of the post.

All fulltime faculty members are allocated teaching hours as per HEC defined limit which enables the faculty to have enough spare time to perform scholarly activities and improve their knowledge and skills.

Faculty members are provided with adequate resources for research and academic activities. Every faculty member has been provided with computer system and access to internet. Faculty members have also access to library materials for academic and research activities. Professional training and opportunity to attend workshops outside university is also provided to faculty, if required, to enhance their capabilities.

The university encourages the faculty to participate in research activities by providing them sufficient support within or outside university.

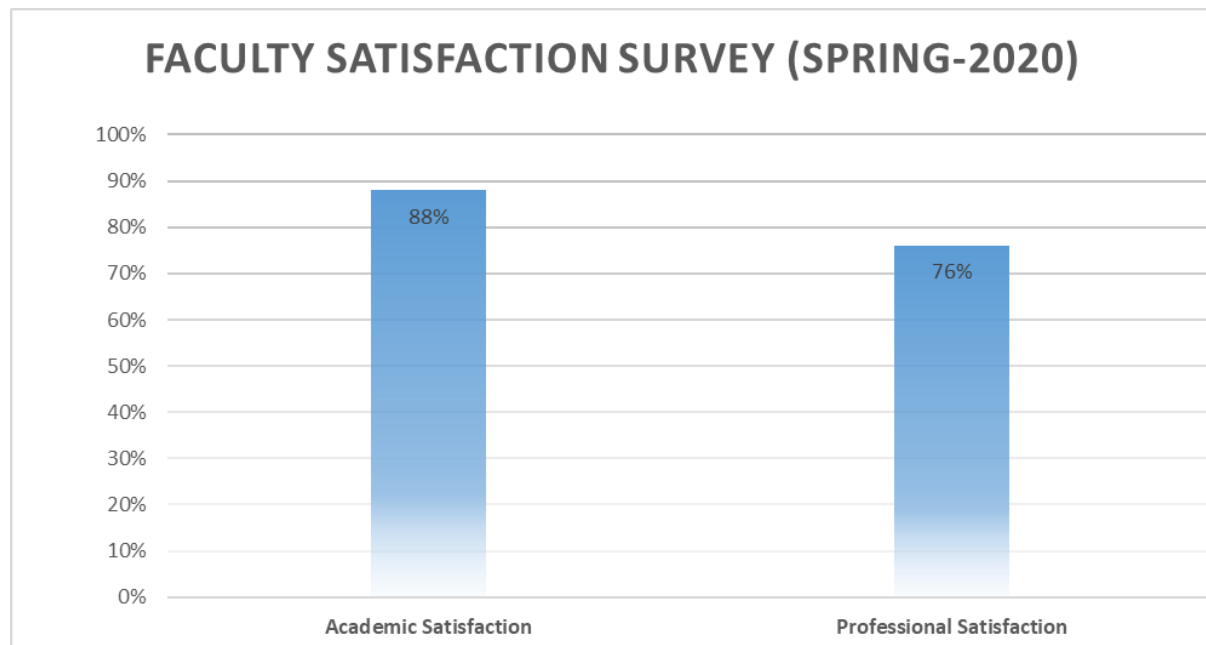

Standard 6-3

All faculty members should be motivated and have job satisfaction to excel in their profession.

The faculty survey of the program using HEC Performa number 5 was conducted the results of faculty for this year is as under:

Category	Questions	Satisfaction	Overall
Academic Satisfaction	Clarity of Institution's Goals/Mission	92%	88%
	Your Interaction with students in and outside classroom	97%	
	Opportunities for research in your discipline and recognition of research accomplishment	77%	
	Whether the department is utilizing your experience and knowledge	88%	
Professional Satisfaction	Communications from/with peers and college leadership	90%	76%
	Administrative support from the department/college	82%	
	Adequacy of technological & multimedia instructional resources	80%	
	The cooperation you receive from the colleagues	95%	
	Recognition/appreciation of good teaching	71%	
	Opportunities for professional development	73%	
	Clarity about the faculty promotion process	55%	
	Salary and compensation package	55%	
	Job security and stability	62%	
	The mentoring available to you from seniors	79%	
	The overall Environment of the department	92%	

Criterion 7: Institutional Facilities

Standard 7-1

The institution must have the infrastructure to support new trends in learning such as e-learning.

The university has provided e-learning facilities to faculty members and students. Each faculty member has a computer system with access to internet and e-learning library section.

Students have been provided a number of computer systems in the library to access e-learning section. There are 65000 e-books on FURC digital library. Every student has been provided with user ID to access the e-learning resources from within the university library.

The support staff to look after the e-learning resources is sufficient in number, trained and responsive. The university has provided enough funding to support the e-learning.

Standard 7-2

The library must possess an up-to-date technical collection relevant to the program and must be adequately staffed with professional personnel.

The university library has enough technical books in hard copies to support the program learning. The internet access provides opportunities to the students and faculty to obtain knowledge from their technical resources. The library is staffed with good number professionals to help students and faculty members to get access to required book or learning material efficiently.

Standard 7-3

Class-rooms must be adequately equipped and offices must be adequate to enable faculty to carry out their responsibilities.

Enough class rooms are available to run the program as per desired schedule. In few class rooms, there is a need of up-gradation of multimedia and other resources. The work orders have been initiated and procurement process is in progress.

All faculty members have allocated cabins or workstations in air conditioned rooms; they are provided with CPUs and internet facility. Each faculty office is equipped with landline extension, printer and shelves. Stationery is allocated to each

faculty member on need basis. However, these facilities are not adequate. The operating systems provided to faculty have outdated software and slow functioning, and the internet connection is sketchy at best. There is only one printer for 12 faculty members, which is not sufficient. The cabins are not spacious, so it is difficult to entertain more than one student at a time, which is often necessary for supervisory duties.

Criterion 8: Institutional Support

Standard 8-1

There must be sufficient support and financial resources to attract and retain high quality faculty and provide the means for them to maintain competence as teachers and scholars.

University allocates enough financial resources each year to hire competent faculty as required. As already listed in standard 5-3, Faculty members are retained by giving them favourable teaching environment, research facilities and management support.

As listed in standard 6-2, Faculty members are provided with adequate resources for research and academic activities to maintain their competence. Every faculty member has been provided with computer system and access to internet. Faculty members have also access to library materials for academic and research activities. Professional training is also provided to faculty if required to enhance their capabilities.

Standard 8-2
